## WASTE MANAGEMENT POLICY

Nasra College of Arts and Science is dedicated to positively impacting society through high-quality education, social engagement, and community service. Recognizing the crucial role of environmental stewardship, our college emphasizes individual responsibility in preserving nature for future generations. We take pride in a robust waste management policy endorsed by stakeholders, ensuring proper waste disposal by our cleaning staff. The college celebrates student initiatives that transform waste materials into value-added products. Addressing the challenges of the postmodern era, our waste management strategy encompasses comprehensive processes from waste inception to final disposal. The campus implements measures in waste collection, transport, treatment, and disposal, while also monitoring and regulating waste management in compliance with relevant laws, technologies, economics, and mechanisms.

### Campus Facilities:

- Biogas Plant for sustainable energy production.
- Sanitary Waste Incinerator for proper disposal.
- Waste Management Awareness Programs organized by NSS and other departments.
- Student-led Projects focusing on effective waste management.
- Pen Booth initiative to collect and recycle used plastic pens.
- Implementation of Waste Sorting using colored bins for efficient waste segregation

### WASTE MANAGEMENT POLICY STATEMENT AND OBJECTIVE

Nasra college's Waste Management Policy Statement clearly outlines the campus's commitment to minimizing its environmental impact through an efficient waste management system, striving towards a Zero Plastic environment. The policy's objectives include preserving natural resources, preventing pollution, ensuring sustainability, safeguarding groundwater sources, raising awareness about waste's adverse effects, promoting waste hierarchy options, engaging scrap dealers for

monthly waste elimination, enhancing waste minimization awareness among stakeholders and rural communities, and establishing the campus as a waste management role model in the rural society.

## The waste management team is composed of:

- Principal
- Vice Principal
- NSS Volunteer students
- Faculty Coordinators from all departments
- Plumbing staff
- 

## Action Plan

- Monitor water and energy resource usage regularly.
- Raise awareness among stakeholders.
- Instruct students to transform used papers into paper bags, distributing them to nearby stores monthly.
- Establish Thirurkad as a zero-plastic zone.
- Classify waste types into categories such as chemical, solid, water, and e-waste.
- Form contracts with scrap dealers to reduce waste disposal.
- Provide guidelines for waste reduction, segregation, collection, and disposal in line with international best practices to prevent environmental degradation and safeguard community health and safety in the Project Area.
